

**REGISTER NOW**  
to attend in-person, online, or on-demand

**“COLLABORATION IN A  
COMPLEX WORLD”**

23-26 October 2022 **Melbourne, Australia**

### Why attend and what you will gain

Intelligence International 2022 provides a unique event for intelligence managers, leaders and practitioners to network with others, generate new ideas, discover successful strategies and learn the processes that are driving the future. It will deliver the insight, opportunity and connections needed to build a bigger, stronger and more versatile intelligence focus in your organisation no matter what your global location or domain of practice. If attending, you will:

- Hear from over 50 international industry leaders and subject matter experts
- Have access for yourself and your staff to career-building opportunities
- Collaborate with other industry professionals and discover the steps that have been taken to achieve successful intelligence outcomes
- Sharpen your skill set and develop new techniques to improve your decision-making process and efficiency in the workplace
- Be re-energised and take away new ideas through interactive sessions with like-minded intelligence professionals
- Have opportunities to make in person and online connections with your peers as well as industry mentors and influencers
- Retain access to a library of resources dedicated to professional development with on demand viewing post event
- Have access to an incredibly well priced registration that provides access to all 14 Tradecraft sessions – and so much more!

**CORPORATE  
REGISTRATIONS**  
for teams of 5+

### Who should attend?

Everyone who has an intelligence function in their organisation – do not miss out on this great opportunity to learn from other like-minded people but also learn what is new in the technical area from our sponsors and exhibitors. Consider **registering a team of 5 or more** to attract a special corporate registration rate. Click on the left hand link for more information about Corporate Registrations.
